## DETAILED ACTION

### *Current Status*

1. This action is responsive to applicants' amendment of 14 November 2006.
2. Receipt and entry of Applicants' amendment is acknowledged.
3. Claims 1-15 are pending in the application.

The rejection of claims 1-7 under 35 U.S.C. 103 as being unpatentable over Smith et al., {US 5,414,124} for the reasons set forth in the previous Office Action of 6/14/06 is maintained. Applicants' amendments filed 14 November 2006 have been fully considered but they are not persuasive because applicants claimed composition still reads on the prior art of Smith et al. when the component in the presently claimed composition reads a quaternary ammonium composition consisting essentially of a) a cationic compound, b) less than 20% by weight of water based on said composition and c) a non-ionic solvent selected from the group consisting of an alcohol or an ethoxylated alcohol and mixtures thereof. Smith et al. teach a quaternary ammonium compound solution comprising from about 50% to about 80% of a quaternary ammonium compound and from about 5.0% to about 50% alkylene glycol with the remainder being water. See the claims in US 5,414,124. The different between the prior art reference and the presently claimed invention do not constitute a patentable distinction because Smith et al. teach the elements of the claimed invention with sufficient guidance, particularity, and with a reasonable expectation of success, that the invention would be *prima facie* obvious to one of ordinary skill in the art.

***Allowable Subject Matter***

Claims 8-15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

**THIS ACTION IS MADE FINAL.** See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
